

WE ARE WILD PARROTS FROM FOREIGN LANDS

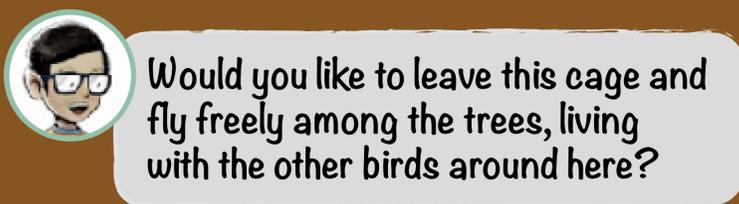

You are so beautiful! Do you also play and have fun just like us?

I love my large aviary, to fly and play in. It is full of toys, and yummy snacks like fruits, nuts, and veggies.

But what about when you go to school? And years later; when I still want to play- who will be there for me?

I do... but my family and friends are far away. I'm from forests, thousands of km from here! Back home, we fly in big groups and play in the trees every day.

No, not here. I don't know these birds- they might even attack me. If you take me back, my old friends might be gone but give me time. I'll find new ones and you'll see how happy I can be!

Thank you! I learnt so much from you today!!

You see, I am in this public zoo here - and not in my forest-home - only because I have a job to do. The job of telling you, about wild parrots like me.
